

REGISTRATION PROCEDURES

100% BREEDER/SELLER RESPONSIBILITY- BUYERS CAN NOT REGISTER.

Payment must be from the breeder, with their email & using their PayPal account or sent by mail to:

**Competitive Advantage Business Solutions, LLC
17500 Hamilton Arms Court
DeWitt VA 23840**

ANY questions concerning litter notifications or registrations must be sent by email to akkpsregistrar@yahoo.com, any other method will not be recognized.

1. LITTER NOTIFICATION:

*Both parents must be AKKPS registered and you must be the registered owner of the sow at the time of farrowing.

*Litter notification can be submitted online, or you can print a PDF form to mail in. (If mailed make the check out to Competitive Advantage).

All forms can be found on our website www.americankunekunepigsociety.com

*The registrar will return your litter notification by email which provides you with AKKPS numbers and the piglets official name (not your call name). These is what you will use to apply for DNA. Litter Notification can take two weeks.

*If you don't already have one your litter notification will be returned with your farm Herd Prefix.

2. DNA TESTING:

*Register with UC Davis.

*Contact UC Davis coordinator to set up your discount, this is Terri Decock akkpscanada@gmail.com (\$11.00 discount, price to you is \$29 each).

* <http://www.vgl.ucdavis.edu/> Fill out Test Form using information from litter notification to submit hair samples. Be sure when it asks for the piglet's number you write AKKPS in front of the number! UCD will notify you when they receive

the samples and will email you again with the results. This could take up to 7-10 business days.

DNA TESTING HELP GUIDE is on our website. Please read carefully

3. PIGLET REGISTRATION:

*When UC Davies returns your DNA result you are then able to submit the registration

application, either online or by mail. A copy of the DNA result (PDF) will need to be uploaded or mailed in with the application. This can take up to two weeks.

*AKKPS accepts three types of Identification for pig/piglets:

- Microchip (any brand)
- Tattoo
- Ear tag

All piglets must be permanently identified prior to leaving for their new homes. This identification will be needed to register the piglets.

If you use a Tattoo, please place your herd name prefix in the right ear of the pig and the registration number (provided to you by our registrar after the litter notification) in

the left ear.

If you use an Ear tag, please provide us with the tag number when registering.

Other Forms are available on the FORMS menu for transferring any animals you already own or dual registering animals from another registry.
